THE breach in the Democratic ranks, or rather the numerous breaches, continue to widen. Congressman BAILEY celebrated the closing day of the discussion of the Tariff Bill in the House by declaring that he would never vote for free wool so long as manufactured woolens were taxed. The Democrats who voted for the Dingley Bill when it first passed the House, voted for it again on its final passage, and sundry other members indicated by their speeches and by votes on pending amendments to the bill that they had forever abandoned the Free-trade theories of the Democratic party. On the other hand, the gold wing and the silver wing of the party are constantly pulling wider apart, and on general questions of currency reform its members are equally divided. The Populist party, which co-operated with the Democrats last year, is also quite as widely divided as to its plans and views, and the condition of both these organizations is in marked contrast with that of the Republican party, which has stood and continues to stand firmly upon all important National questions.

The Great John Robinson and Franklin Bros. Shows Combined.

Never in the history of tented amusements has the world known so vast an enterprise as the one made by the combining of these two great institutions. It has prought the circus field into a new era, and placed circus exhibitions upon a basis that has never before even been attempted. Two separate and distinct representative circus companies, culled from the best that the world affords have been joined together. Two massive menageries have been blended into one and the two magnificent parades is given daily in the cities where these combined shows are to ex hibit.

It requires the largest tents that have ever been constructed to accommodate this big amusement institution, and so enormous have been the crowds attending. that it has been necessary to augment the seating capacity, for it is not the policy of these shows to so limit their seating capacity as to make those who desire to 21,187, to 13,144; Norway, 8,155 to 5,842; see and enjoy the wonderful performances procure reserved seats, and while there have been reserved opera chairs placed around the arena for the accommodation and Trading Co., at Seattle, Wash., the of those desiring them, fully eight-tenths following telegram: of the seats are free to the patrons. Their day of exhibition in Maysville is August for the official warning to people rush-23d and it will surely be a gala day.

WASHINGTON, Aug. 12.-The tide of immigration is at the lowest point since the general government assumed number of arrivals from all countries, according to treasury statistics during last fiscal year, was 280, 832, a decrease as compared with the previous year of 112,435. The highest immigration of any previous year was in 1805, when the number from all countries was 279,-948. The year of heaviest immigration was the first of the period beginning with 1882 when arrivals numbered 788,-002. During the entire period of federal supervision 7,432,016 having entered the country. The arrivals of Russian Jews for the past year numbered 22,759, as againt 45,137 for the fiscal year ended June 30, 1896.

Italy furnished the greatest number of emigrants, 54,431, a decrease of 8,629 from last year. The cause of the heavy Italian immigration of 1896, was assigned to the war of Italy with Abyssinia, but the figures for the last year are not abnormal, having been exceeded by several years of the period Since 1882 there has been a large and steady decrease in German immigration; in 1882, 250,630 entered the United States from that country, while in 1896 only 22,533 arrived. It will be seen that the number of German immigrants during the first year of government supervision exceeded the immigration from all countries during the ast year. Immigration from Austria-Hungary decreased from 55,103 in 1896, to 33,031, in 1897. The decrease from other countries is as follows. England 19,492 in 1896, to 9,974 in 1897; Sweden, and Ireland, 40,262 to 28,421.
